SKILLS

- **Languages** : C/C++, Java, TypeScript, PHP
- **Frameworks & Libraries:** ReactJS, NodeJS, Express, Express.js, Laravel, HTML and CSS, Tailwind CSS.
- **Tools & Platforms** : MySQL, MongoDB, Git, GitHub, Figma, Canva.
- **Core CS Fundamental** : DBMS, OS, SQL, OOPs
- **Soft Skills** : Time-management, Keen listener , Fast learner, Adaptability, Creative.

PROJECTS

Preventive-Maintenance | [GitHub](#)

Feb 2025 – May 2025

- Built a comprehensive system to schedule, manage, and track regular maintenance activities, helping ensure timely servicing and preventing potential equipment failures.
- Implemented automated alert and reminder features to notify users about upcoming maintenance tasks, improving adherence to maintenance schedules.
- Improved operational efficiency by minimizing unexpected breakdowns and reducing overall maintenance costs through proactive and well-planned servicing.
- Tech stack: HTML , JavaScript, Tailwind CSS, React.js ,Node.js, MySql, Mongo DB.

Parking Space Finder| [GitHub](#)

Oct 2025 – Dec 2025

- Developed a web-based platform that allows users to efficiently search and locate nearby parking spaces, reducing time and effort in finding available spots.
- Integrated real-time functionality to display live availability and precise locations of parking slots, ensuring users receive accurate and up-to-date information.
- Designed an intuitive and user-friendly interface that enables quick booking and smooth navigation to parking areas, enhancing overall user experience
- Tech stack: HTML , JavaScript, Tailwind CSS, React.js , Node.js, MySql, Mongo DB.

Traffic and accident management| [Github](#)

Feb 2026 – May 2025

- Developed a Traffic and Accident Management website to help users report accidents and access traffic-related information easily.
- Created separate dashboards for Admin, User, and Officer to ensure smooth and organized system management.
- Designed the platform to improve communication between the public and traffic authorities, enabling faster response and better road safety.
- Tech stack: HTML , JavaScript, Tailwind CSS, Laravel, Mongo DB.

TRAINING

PEP Program – Lovely Professional University| [Certificate](#)

Jun 2025 - Jul 2025

- Completed an intensive training program focused on improving programming skills and strengthening theoretical knowledge through structured, industry-aligned practice.
- Earned an A grade in the PEP Program for UI/UX Prototyping, creating user-centered wireframes and interactive prototypes using Figma.
- Skills Covered: Using of figma, canva

Full Stack Web Development| [Certificate](#)

Oct 2025 – Dec 2025

- Completed an intensive Full Stack Development training program, focusing on building dynamic web applications using modern frontend and backend technologies.
- Strengthened practical development skills through structured, industry-aligned practice and hands-on projects involving databases, APIs, and responsive web design.
- Skills Covered: HTML, CSS, JavaScript/TypeScript, Node.js, Java, PHP, Laravel, SQL, MongoDB.

CERTIFICATES

- Master Generative AI & Generative AI tools (ChatGPT & more) || [Link](#) Aug 2025
- Master Course in Full Stack Development || [Link](#) Feb 2024
- Freecodecamp.org Certificate || [Link](#) Oct 2023

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.09** Aug 2023 - Present
- **SA Jain Senior Model School** Ambala city, Haryana
Intermediate; **Percentage: 67.8%** Jun 2022 - May 2023
- **SA Jain Senior Model School** Ambala city, Haryana
Matriculation; **Percentage: 80%** Jun 2020 - May 2021
